Additional Clarification on packaging of Fortified blended Flour

1. Primary packaging -300gms sachet
2. Secondary packaging - 15 sachets in a polythene bag (4.5kgs)
3. Tertiary Packaging - Carton box of 4 polythene bags of 15 sachets (Total of 60 sachets) weighing 18kgs.

The following query was raised by an interested bidder and hereby respond as follows;

Question 1:

Under the Mandatory requirements:

Current and valid product listing with QR codes from the Kenya Pharmacy and Poisons Board or Approved as safe for human consumption by Kenya Bureau of Standards (MANDATORY).

Kindly confirm if this criteria is applicable to both: Fortified blended Flour 300gms & Ready-to-use Therapeutic Food (RUTF) 92gms

Response:

The above criteria apply for both Fortified blended Flour (FBF) & Ready-to-use Therapeutic Food (RUTF).

Yours Faithfully,

Moses Sudi
