The following Query was raised by interested bidder, and response is provided as detailed below.

Question.

I write to seek clarification on the tender which is upcoming for Malaria Testing Kits. We have a company with all the requirements and the capacity. It has a name "construction" within its names. Can we apply or that would be an impediment?

Answer:

The tender is open to all eligible bidders.

A handwritten signature in blue ink, appearing to read "Moses Sudi", is written over the printed name.
